DEVON BAMBINO

THE DEVON BAMBINO IS THE ULTIMATE IN MICRO MOTORCARAVANS. BASED ON THE NIPPY AND EASY TO MANOEUVRE DAIHATSU HIJET IT IS AN IDEAL DAILY RUNABOUT THAT BY MEANS OF A "MIRACLE IN SPACE UTILISATION" TRANSFORMS INTO A COMFORTABLE AND SPACIOUS CAMPER FOR ONE OR TWO PEOPLE.

motor caravans

The easy to operate elevating roof provides full standing room when up whilst keeping overall vehicle height to just 6ft 4 1/2 ins when down. With the swivel passenger seat there is room for two people to relax and stretch their legs. The settee can be used as a single bed without alteration, or can quickly be converted into a small double bed.

The Bambino comes with a stainless steel two burner hob with Piezo ignition, a matching sink with underfloor fresh water tank and tap operated pump. There is a surprisingly roomy wardrobe with a gas storage locker for a Camping Gaz 907, under seat storage and several small kitchen cupboards. Your Bambino also comes with mains hook-up, auxiliary battery and a Porta Potti 335 to make it an unusually well equipped micro camper. A side awning can be specified at extra cost to provide a large extra living area of approximately 6ft x 9ft.

The Bambino benefits from Devon's years of experience in design and build quality and although only small, is a cheeky and lovable competitor at the smaller end of the motorcaravan market.

SPECIFICATION - VEHICLE

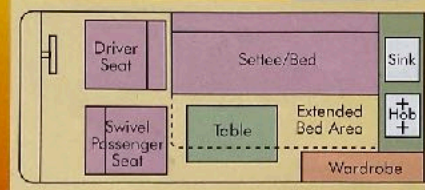

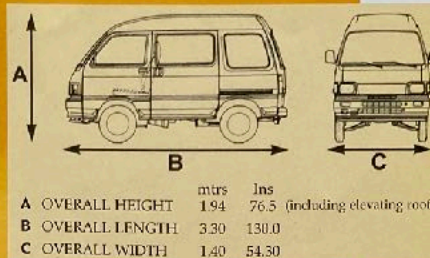

Engine	1.3 16 valve electronic fuel injection
Transmission	Rear wheel drive, 5 speed gear box
Gross vehicle weight	1556 kgs.
