

# DEVON VENTURER

The Venturer was first introduced over ten years ago and proved to be an immediate success. It is ideal for those wanting a car sized vehicle for everyday transport that doubles as a camper for holidays and weekends.

The Venturer is now based on the LDV Cub. With its 2.3 litre diesel engine, power steering, forward facing seats with seat belts and other car like features it makes a desirable family estate car that also has an exceptional load carrying capacity. The LDV Cub is also very car like to drive, and has made a name for outstanding reliability backed by a 3 year/ 60,000 mile manufacturers warranty.

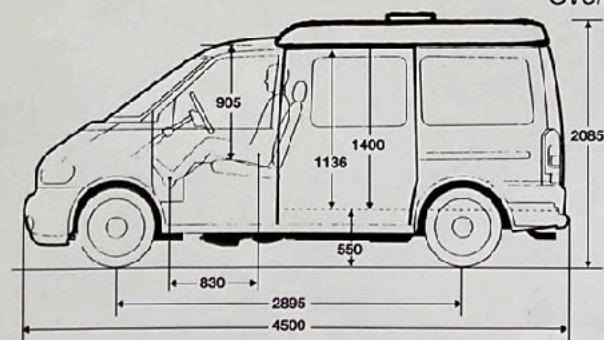

The Venturer is a very capable little camper and comes fully equipped with elevating roof, large double bed, two burner hob with Piezo ignition, matching stainless steel sink, and a roomy wardrobe. There is a six gallon underfloor fresh water tank, three way fridge, mains hook-up and auxiliary battery. An upholstered potti stool is available, which whilst adding a useful extra seat, also accommodates a Porta Potti 335. To provide extra accommodation a side annexe can be added.

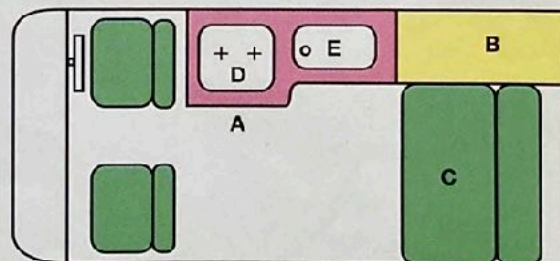

As with all Devons quality is foremost. The furniture is solidly built from 15mm lightweight plywood and only the best quality materials and fabrics are used throughout, to provide a durable, long lasting motorhome that is a pleasure to own and drive.
